Alex Payton fixes code for a living. But a small line of code in a Swiss bank's computer propels her into a world of corruption and deceit as she uncovers a bank account opened for a Jewish family before World War II. From her basement cubicle in Zurich, she is drawn to Budapest, New York, and Brazil on a dangerous hunt for the truth.

The account Alex discovers is a *Treuhand* account, one of many set up to protect Jewish families' identities from Nazi persecutors. This one has been slowly accruing value in a Swiss bank for more than half a century and has remained unclaimed - and undisclosed.

As she searches for clues to the fate of the family, Alex becomes entangled in an international web of treachery and murder. With each step of her investigation, she unknowingly exposes herself - and the lost heirs - to the dangers of revealing secrets that some would kill to protect.
