**Did you ever think about how it would be like to grow your own fruits and vegetables without taking up too much space?  
Do you think that all farming methods except soil-based one are expensive?**

**This book will prove you wrong. !!**

**YES!!, you really can grow your own fruits and vegetables even if you don't have huge backyard.**

**And NO!!, you don't have to spend too much money on the way.**

At some point of our lives, we want to rely on ourselves when it comes to growing various plants. It has something to do with the way our ancestors lived. They only ate what they caught or what they grew. However, when you live in a house that doesn't have a big yard, or you do have one but you are physically not strong enough to work all day in the field, there is a way to have your own plants easily. The answer is **HYDROPONICS**.

*Hydroponics* is a method of growing plants in a *soil-free medium*.

Hydroponics systems are very simple and they function by connecting the root of the plant with the nutrient solution that is dissolved in water.
