The iPad Project Book Michael E. Cohen, Dennis Cohen, Lisa L. Spangenberg

Bridging the gap between the palm-sized iPod touch and a full-sized computer, Apple's iPad offers enough screen area and horsepower to perform the day-to-day tasks most people want to do. Packed with practical knowledge, this book will walk readers through how to manage their most common projects, from the simple (setting up a calendar event) to the complex (planning a vacation) and everything in between. Readers will learn to use the iPad tools and applications by using them to create practical real-world projects and to master everyday tasks.

In this practical hands-on guide, you'll learn how to

- Organize a party: Set up the calendar event, create invitations, invite attendees, and mail out the invites.
- Build a recipe scrapbook: Write up recipes in Pages (or find recipes via one of the useful recipe apps) and import pictures of the finished dish to go with the recipe in the book. Even learn iPad kitchen tips!
- Plan a vacation: Buy tickets, find destination activities, and map out directions.
- Watch videos: Stream videos with Air Video, convert high-quality movies from DVDs, and buy or rent videos from the iTunes Store.
- Get smart: Learn another language with one of the many translation apps available, and build an illustrated deck of flash cards with common words and phrases.

Plus many more useful projects—both big and small—to help you do stuff with your iPad.

From reader reviews:

Carolina Jones:

What do you think about book? It is just for students because they're still students or the item for all people in the world, exactly what the best subject for that? Only you can be answered for that issue above. Every person has several personality and hobby per other. Don't to be pressured someone or something that they don't need do that. You must know how great and also important the book The iPad Project Book. All type of book could you see on many methods. You can look for the internet methods or other social media.

Livia Wilder:

Information is provisions for anyone to get better life, information today can get by anyone in everywhere. The information can be a understanding or any news even an issue. What people must be consider whenever those information which is inside former life are hard to be find than now could be taking seriously which one is appropriate to believe or which one typically the resource are convinced. If you get the unstable resource then you get it as your main information it will have huge disadvantage for you. All of those possibilities will not happen in you if you take The iPad Project Book as your daily resource information.

Elmer Dooley:

This book untitled The iPad Project Book to be one of several books that will best seller in this year, that is because when you read this reserve you can get a lot of benefit in it. You will easily to buy that book in the book retailer or you can order it by way of online. The publisher in this book sells the e-book too. It makes you more readily to read this book, because you can read this book in your Cell phone. So there is no reason for you to past this guide from your list.

Dennis Jenkins:

People live in this new day of lifestyle always aim to and must have the free time or they will get lots of stress from both day to day life and work. So , when we ask do people have time, we will say absolutely of course. People is human not only a robot. Then we question again, what kind of activity do you possess when the spare time coming to you actually of course your answer can unlimited right. Then do you try this one, reading textbooks. It can be your alternative within spending your spare time, often the book you have read is actually The iPad Project Book.
