Whether you are a student, professional, or teacher of the arts, this book delivers succinct, practical, and candid advice that addresses both common concerns in the creative path and the real-life challenges an artist faces in the real world. Breaking down the creative arc into “student,” “professional,” and “teacher” reinforces that we all have something to learn, to create, and to teach. Addressing universal problems, fears, and roadblocks faced by artists, this book offers solutions, hope, and motivation. Those starting their art career will value the tips and strategies for becoming known (“Be able to sum up your work in a single sentence.”) as well as staying motivated (“Never ever stop making your art.”). Teachers will gain insights from not only my experiences but also the perspectives of my colleagues, mentors, and students. This easy-to-digest volume has advice that can be readily put into practice by anyone.
