"I need you to bite me"

This is a steamy standalone story with a HEA ending.

Daphne had always felt out of place, never truly feeling at home anywhere. She found her day to day life in the city both stressful and exhausting. The people she knew were nice, but Daphne struggled to feel any real connection with them and her relationships always left her unfulfilled.

On a solitary weekend retreat in the woods, a chance encounter with a darkly handsome stranger changes her life forever. He offers her a new way of life, filled with passion and lust. A life where every moment is lived to its fullest potential, and you simply take whatever it is you desire.

Now, Daphne must make a choice; leave everything and everyone she's ever know behind and risk everything for this mysterious man, or return to the safety of the world she knows and live with the knowledge that she may have passed on her one chance at being truly happy.
