Genesis One: A physicist Looks at Creation Gerald Schroeder, Zola Levitt

According to Professor Gerald Schroeder, a nuclear physicist from MIT, God's creation took 15 billion years, but also six twenty-four hour days as Scripture states! The answer lies in time dilation in our universe. Things that look very small, like distant stars, are actually very large. And times that seem very short, like six days for all of creation, become very long—even as long as 15 billion years. "How can these things be?" Just read this book.
