Signal Theory Methods in Multispectral Remote Sensing

David A Landgrebe

Signal Theory Methods in Multispectral Remote Sensing David A Landgrebe

An outgrowth of the author's extensive experience teaching senior and graduate level students, this is both a thorough introduction and a solid professional reference.

* Material covered has been developed based on a 35-year research program associated with such systems as the Landsat satellite program and later satellite and aircraft programs.

* Covers existing aircraft and satellite programs and several future programs

*An Instructor's Manual presenting detailed solutions to all the problems in the book is available from the Wiley editorial department.
