The 1807-14 war in the Iberian Peninsula was one of the most significant and influential campaigns of the Napoleonic Wars. Arising from Napoleon's strategic need to impose his rule over Portugal and Spain, it evolved into a constant drain on his resources. Sir Charles Oman's seven-volume history of the campaign is an unrivalled and essential work. His extensive use and analysis of French, Spanish, Portuguese and British participants' accounts and archival material, together with his own inspection of the battlefields, provides a comprehensive and balanced account of this most important episode in Napoleonic military history.

During this period, the outcome of the war was effectively decided by Wellington's advance from Portugal into Spain. The operations that took place at this time included the French campaigns of late 1811, the Allied offensive, and Wellington's great victory at Salamanca. Other notable actions included that at Garcia Hernandez, and there were also smaller operations such as those on the east coast of Spain. Orders of battle, lists of strength and casualties, and an account of Wellington's intelligence officer and code-breaker Sir George Scovell, whose efforts contributed greatly to Wellington's plans of campaign, are given in the appendices to this volume.
