Lucifer's Son Paul Armstrong

This a story is about a fallen angel, that is often misconstrued in Christianity and other religious faiths, that manifests itself in human form, by creating a son; much like God producing a son to do his will. Well, if God can manifest itself into the material world, then why can't another entity in the spiritual realm manifest itself into a material world? So, Lucifer's son has his role to play on earth until his soul is reabsorbed back into its maker; which exists in the cosmic universe of consciousness. Lastly, this is the third time I have proof read this book. Hopefully there are no eye sores or confused sentences. Thank you reading it. PA.
