Professional Hadoop Benoy Anthony, Konstantin Boudnik, Cheryl Adams, Branky Shao, Cazen Lee, Kai Sasaki

The professional's one-stop guide to this open-source, Java-based big data framework

Professional Hadoop is the complete reference and resource for experienced developers looking to employ Hadoop in real-world settings. Written by an expert team of certified Hadoop developers, committers, and Summit speakers, this book details every key aspect of Hadoop technology to enable optimal processing of large data sets. Designed expressly for the professional developer, this book skips over the basics of database development to get you acquainted with the framework's processes and capabilities right away. The discussion covers each key Hadoop component individually, culminating in a sample application that brings all of the pieces together to illustrate the cooperation and interplay that make Hadoop a major big data solution. Coverage includes everything from storage and security to computing and user experience, with expert guidance on integrating other software and more.

Hadoop is quickly reaching significant market usage, and more and more developers are being called upon to develop big data solutions using the Hadoop framework. This book covers the process from beginning to end, providing a crash course for professionals needing to learn and apply Hadoop quickly.

- Configure storage, UE, and in-memory computing
- Integrate Hadoop with other programs including Kafka and Storm
- Master the fundamentals of Apache Big Top and Ignite
- Build robust data security with expert tips and advice

Hadoop's popularity is largely due to its accessibility. Open-source and written in Java, the framework offers almost no barrier to entry for experienced database developers already familiar with the skills and requirements real-world programming entails. *Professional Hadoop* gives you the practical information and framework-specific skills you need quickly.

From reader reviews:

Paul Erdmann:

This book untitled Professional Hadoop to be one of several books in which best seller in this year, that is because when you read this guide you can get a lot of benefit in it. You will easily to buy this particular book in the book retail store or you can order it via online. The publisher in this book sells the e-book too. It makes you more easily to read this book, since you can read this book in your Touch screen phone. So there is no reason for your requirements to past this publication from your list.

Shelly Gomes:

The e-book untitled Professional Hadoop is the publication that recommended to you to study. You can see the quality of the guide content that will be shown to a person. The language that article author use to explained their way of doing something is easily to understand. The article writer was did a lot of research when write the book, therefore the information that they share to your account is absolutely accurate. You also might get the e-book of Professional Hadoop from the publisher to make you more enjoy free time.

Ronald Ybarra:

This Professional Hadoop is great publication for you because the content which is full of information for you who else always deal with world and also have to make decision every minute. This specific book reveal it data accurately using great arrange word or we can claim no rambling sentences included. So if you are read that hurriedly you can have whole info in it. Doesn't mean it only gives you straight forward sentences but difficult core information with lovely delivering sentences. Having Professional Hadoop in your hand like keeping the world in your arm, facts in it is not ridiculous just one. We can say that no guide that offer you world with ten or fifteen moment right but this book already do that. So , this is certainly good reading book. Hello Mr. and Mrs. hectic do you still doubt which?

Laura Grier:

Reading a book make you to get more knowledge from it. You can take knowledge and information coming from a book. Book is composed or printed or outlined from each source which filled update of news. On this modern era like right now, many ways to get information are available for anyone. From media social just like newspaper, magazines, science book, encyclopedia, reference book, story and comic. You can add your understanding by that book. Are you hip to spend your spare time to spread out your book? Or just looking for the Professional Hadoop when you required it?
