Humanity and the Highborn smashed the cyborgs in the Solar System. But the machine men have a long-term plan to regain everything they've lost. They will slip away into the wider galaxy from their secret base on Tyche in the Oort cloud. They will go to a nearby star system to rebuild and return stronger than ever.

The Sunbeam can't reach into the Oort cloud. A spaceship will take three years to reach the cyborg base. Despite the distance, Marten Kluge orders Task Force 7 to make the lonely trek.

In the Oort cloud, the cyborgs spring a trap. Now, in the darkness far from home, the last Space Marines enter their insertion pods for the methane-icy surface. They plan to sell their lives if they must in order to end the cyborg menace forever.

Previously published in the anthology Planetary Assault, TASK FORCE 7 is a stand-alone NOVELLA, which means it's SHORTER and CHEAPER than your typical Doom Star book.
