## **The Drama in the Text: Beckett's Late Fiction** Enoch Brater

*The Drama in the Text* argues that Beckett's late fiction, like his radio plays, demands to be read aloud, since much of the emotional meaning lodges in its tonality. In Beckett's haunting prose work the reader turns listener, collaborating with the sound of words to elucidate meaning from the silence of the universe. Enoch Brater ranges across all of Beckett's work, quoting from it liberally, and makes connections mainly with other writers, but also with details drawn from the entire Western cultural heritage. Brater serves as an authoritative and persuasive guide to the rich texture of such a difficult but compelling vocabulary, providing recognition, insight, and accessibility.
