Billionaire tech genius and inventor Milton Shaw never had life easy. Growing up in the foster system, his only escape was into the world of magic, studying Houdini and perfecting the art of sleight of hand. Too smart to fit in, and isolated from his peers, he vowed that one day he would be so powerful that no one could touch him.

Stern doctor Regina Gallows hates nothing more than attention and trickery. In fact, she went into science to feel in control of her world. Yet when her work brings her into contact with the sexy tech superstar Milton Shaw, she finds her body warring with her idealism...and her desires shifting from unlocking the magician's secrets to unlocking his heart.
